**Dear parents, carers, young people and professionals,**

Falkirk Council Education Services is currently developing the *Education Accessibility Strategy and Action Plan for 2026–2029*. This strategy outlines how we will continue to improve accessibility across our schools, early learning centres and nurseries—ensuring every child and young person can participate fully in learning, feel included, and have their needs recognised and met.

As part of this process, we are inviting parents, carers, young people (12+) and professionals to share their or their child’s views by completing a short survey. Your feedback is essential in helping us understand what is working well, where barriers still exist, and how we can improve our curriculum, physical environments, and communication approaches across all educational settings.

**We encourage you to take part.** Your insights will directly inform the final version of the Accessibility Strategy and help shape the supports and services we deliver over the next three years.

**Survey link:** <https://bit.ly/3Ppljwo>

**Closing date:** 17/04/2026

The survey can be completed via the Participate Plus platform, which allows registered users from age 12.

If you require the survey in an alternative format or need support to take part, please let us know via the email address or telephone number above and we will be happy to help.

Thank you in advance for your time and for your ongoing support in improving accessibility for all Falkirk children and young people.

Yours sincerely

David Wells
