## **Nutritional Value**

All of our P1-P3 meals are the same as any other paid for meal, no cut-backs! Our weekly menu is analysed by our full-time Nutritionist to ensure it meets the standards contained within the Nutritional Requirements for Food and Drink in Schools (Scotland) Regulations 2008. A school lunch will provide around one third of a child's daily nutritional need.

## **A Positive Experience**

Whilst our dining areas are very busy places during lunch, they are well organised. We now have additional supervision in many schools to make sure there are orderly queuing arrangements and that pupils are not spending a long time in the queue. This is achieved through either rolling or allocated sittings where different year groups are called to the dining room at different times. Experiencing the service counter and chatting to the catering staff is a good experience assisting pupils with their skills for everyday life.

## **Menus and Tasters**

Our menus are developed twice per annum by testing them in selected schools. The children experience the dishes each day for 3 weeks before we analyse the feedback and subsequently include dishes, adapt recipes or reject the dish. Accordingly all of our recipes have been child proofed! If your child is a bit reluctant to try school lunches, we do offer taster portions in a bid to encourage children to either use the service or broaden their tastes for the next time. Your school/catering team will be able to advise on how this works in your school.

## **Medically Prescribed Diets and Allergy**

We provide adapted menus to meet all such needs. Please refer to your school office or [www.pkc.gov.uk/schoolmeals](http://www.pkc.gov.uk/schoolmeals) to obtain a request form.
