

## High Mill Primary School Uniform

School uniform plays a key role in promoting pride, self-confidence and a feeling of belonging to the school. In addition, it helps create a positive profile within the community and can act as a safeguarding measure e.g. on excursions. These factors contribute to pupil wellbeing, removing the additional pressures of deciding what to wear and reduces any stress of meeting the expectations of their peers.

At High Mill Primary, we appreciate the additional financial demands sending a child to school can place on families including buying school uniform. We took 'Cost of the School Day' into consideration during our uniform consultation this session. The result of the surveys with pupil, parents and staff have resulted in only minor changes and some items being optional. Below you will find an overview of school uniform as determined by our pupil, parent and staff surveys.
