

# Our Vision

To 'Bee' all we can be

This vision is embodied in our school aims and our school motto.

Our school motto relates to our values which guide the way we work. Staff, pupils, parents and members of our community were all involved in an extensive and highly successful consultation process to decide upon a set of values which we all agreed encapsulated our school and what we wish for all who work in our school.

Each value has a set of associated behaviours that children and staff devised to demonstrate how we would live our values.

We all feel part of the school community.  
We are tolerant and respectful of each other.  
We think about the choices we make.  
We are curious and enjoy playing and exploring.

We are learning to bounce back when things are hard.  
We are keen and eager to try all school experiences.  
We support each other in all we do.  
We aim to be all we can be.
