

Belonging • Experiences • Aspirations • Teamwork • Honesty

This September the new Mentors in Violence Prevention (MVP's) underwent their training over two days, hosted by the Cowdenbeath Golf Club. Many teachers were at the training days to support the new MVP's along with Miss Wyse who has taken lead of MVP since she joined Beath.

The first day started with getting an introduction to MVP and learning about the different types of abuse. Throughout the day they were sorted into groups and had to work together and plan to deliver one of the scenarios that get delivered to first and second years.

On the second day 5 MVP's who were trained the previous year came along to support the trainees. The second day each group got to present their scenario to the rest of the MVP's. The day finished with the new MVP's getting their certificates and some photos.
