Beath High School

S4>S5 and S5>S6 Learner Pathways

School/College Partnership

2020-21

Beath High School – Senior Phase Learner Pathways 2020-21

Introduction

S4 and S5 pupils are now considering their Learner Pathway as they move towards their S5/S6 at Beath High School. From the full range of courses on offer, pupils are required to choose five different subjects to study during third year. In addition, current S4 and S5 pupils will continue with their current NPA course as they move into S5 and S6 in 2020-21.

To ensure that learners have as much information and guidance as possible, and in addition to all of the general advice given in Personal and Social Education classes, we provide pupils with an individual interview with their Guidance teacher.

A significant amount of work has been done to review our curriculum offer to deliver our curriculum rationale:

The Beath curriculum is designed to encourage the learning and development of all of our young people. Our curriculum allows learners to achieve their true potential through flexible pathways to success. Personalisation ensures that the needs of all learners are met. Our young people gain a portfolio of qualifications, experiences and skills from our curriculum. We utilise partnership working and we focus on improving attainment and achievement. Our learners are supported into a robust and sustained positive destination.

If you have any further questions, please do not hesitate to make contact with the school.
