

Beath High School

S2 into S3 Learner Pathway

Social Subjects & RME

2020-21

S3 Learner Pathway

S2 pupils are now considering their S3 Learner Pathway as they move towards their third year at Beath High School. From the full range of courses on offer, pupils are required to choose seven different subjects to study during third year, including English and Maths. Pupils will also choose an Elective choice.

At the end of their third year, pupils will take their seven subjects forward into their fourth year and complete SQA Qualifications in the same seven subjects. It is therefore important that the correct choices are made. To ensure that they have as much information and guidance as possible, and in addition to all of the general advice given in Personal and Social Education classes, we provide pupils with an individual interview with their Guidance teacher.

A significant amount of work has been done to review our curriculum offer to deliver our curriculum rationale:

The Beath curriculum is designed to encourage the learning and development of all of our young people. Our curriculum allows learners to achieve their true potential through flexible pathways to success. Personalisation ensures that the needs of all learners are met. Our young people gain a portfolio of qualifications, experiences and skills from our curriculum. We utilise partnership working and we focus on improving attainment and achievement. Our learners are supported into a robust and sustained positive destination.

If you have any further questions, please do not hesitate to make contact with the school.

SOCIAL SUBJECTS & RME FACULTY

- Geography
- History
- Modern Studies
- Religious, Moral and Philosophical Studies (RMPS)

Subject: Geography

Year Group: S3

Course Structure and Content:

The course is made up of 3 units and an Added Value Unit or Assignment.

Physical Environments: this unit is about the physical world we live in. We study what influences the formation of different landscapes, how humans use this landscape and the conflicts that can exists between land users. We also look at the different weather systems that affect the British Isles and learn how to analyse synoptic charts to predict the weather.

Human Environments: this unit is about the human interactions in the world we live in. We study what influences where people live, why some countries are wealthier than others and why our town and cities originated and grown over time.

Global Environments: this unit is about the impacts of human and the environmental activities on our planet. We study tourism, climate change, natural disasters, natural regions and diseases of the world.

Assignments: throughout your time in Geography, we will be learning outdoors, especially through our **fieldtrips** to a river study and Edinburgh's Winter wonderland.

Skills Development:

Pupils who study Geography in S3 will develop the following skills:

- Describing
- Explaining
- Analysing
- Team building
- Time management
- Problem solving

Pupils will develop their understanding of both the human and physical world we live in and the impacts – both positive and negative – that humans have on Earth.

Furthermore, pupils will develop skills in Literacy, Numeracy and Health and Well-Being across the curriculum.

Progression into the Senior Phase and Beyond:

The course will lead to accreditation at either National 3, National 4 or National 5 Geography at the end of S4. Further progression in S5 and S6 would involve Higher Geography or potentially environmental Science.

Career/Opportunities:

Some of the careers requiring Geography skills are: Emergency Services, Military, Town Planning, Teaching, Environmental Protection, Offshore Oil & Gas, Renewable Energy, Meteorology, Travel and Tourism.

Methods of Assessment:

Continuous 'informal' assessment of throughout to monitor progress.

Tracking assessments based on SQA past papers, under timed conditions for unit assessments.

Subject: History Year Group: S3

Course Structure and Content:

Our world is shaped by events and experiences which have gone before. Studying History enables us to better understand the context in which we live. Senior History courses examine the different legacies that exciting, tragic and momentous events have had on our lives today. History connects with the present day. We can learn from past errors or past achievements in order to inform how we live in modern society.

S3 topics

- 1) Changing Britain, 1760-1900 (British)
- 2) Scotland and the Great War, 1914-1928 (Scottish)

S4 topics

- 1) Modern Britain, 1880-1951 (British)
- 2) The Scottish Wars of Independence, 1286-1328 (Scottish)
- 3) Hitler and Nazi Germany, 1919-1939 (European)

Skills Development:

Pupils who study History in S3 will develop the following skills:

- Describing
- Explaining
- Analysing sources
- Making decisions
- Researching

Progression into the Senior Phase and Beyond:

Depending on progress in S4, pupils will be able to continue with History at the following levels:

- National 5
- Higher
- Advanced Higher

Career/Opportunities:

Depending on progress in S4, pupils will be able to continue with History at the following levels:

- National 5
- Higher
- Advanced Higher

Methods of Assessment:

Throughout S3, there will be a range of summative and formative assessments. The summative assessments will link Level 4 outcomes to a range of skills. These tasks will also help to inform progression into S4 by providing evidence which can help to identify the appropriate level into S4. The vast majority of pupils will sit N4/N5 in S4 but some may opt to sit N3. An end of year exam in S3 will help to determine levels moving into S4. Regular tasks will be set for submission as well as formal tracking tests based on past paper questions. This will help to prepare learners for the S4 exam. Combined with the exam will be an assignment which will lead to an overall grade at the end of the year for those sitting National 5. National 4 pupils will sit internally assessed units and an Added Value Unit in order to achieve this qualification.

Subject: Modern Studies

Year Group: S3

Course Structure and Content:

* Scottish Politics

The rise of the Scottish Parliament: the issues covered under devolution. How have these impacted in differences between Scotland and the rest of the UK.

The role of MSPs in and out of the Scottish Parliament. How laws are created and which ones have an impact on our lives. How MSPs are elected.

Scottish Councils - what they are, the services that they provide, how they are funded and their relationship with the Scottish Parliament. Pressure Groups: what they are, their purpose and their methods.

* Social Issues

(a) Crime

an in-depth study of crime: law, courts, sentencing. The use of prisons and do they work, alternative punishments: cost and effectiveness. Role of the police, different units and their roles in society.

(b) Health and Wealth

Income and wealth inequalities. Causes of poor health and government actions to improve it. Does poverty or poor lifestyle choices cause ill health? Should government take action to help people improve their health? Lifestyle choices: smoking, diet and alcohol and drugs and their impact.

* <u>International Issues</u>

- (a) China a study of a different ideology, significant change over 30 years, rich v poor, impact of China on the world.
- **(b)** *South Africa* history of apartheid, social and economic inequalities as a legacy of apartheid, changing impact of a redirection in government policies in health, education and housing
- **(c)** *USA* The ethnic makeup of the USA and the concentration of ethnic groups in key regions. Social and economic inequalities through the study of health, education, housing and employment. The government structure of the USA. The impact of the USA on other countries across the globe.

* Scottish Politics

The rise of the Scottish Parliament: the issues covered under devolution. How have these impacted in differences between Scotland and the rest of the UK.

The role of MSPs in and out of the Scottish Parliament. How laws are created and which ones have an impact on our lives. How MSPs are elected.

Scottish Councils - what they are, the services that they provide, how they are funded and their relationship with the Scottish Parliament. Pressure Groups: what they are, their purpose and their methods.

Course assignment

Pupils choose an area of politics from which they select their own question/ hypothesis on which to carry out personal research. Once a number of useful sources have been collected (National 5) a 60 minute write up is required, using the sources, from which a decision or conclusion must be reached about the topic. For National 4 the information is to be presented in the form of a poster.

Skills Development:

Studying Modern Studies helps develop a wide range of vital life skills including:

- Analysing sources
- Developing an understanding of politics

Progression into the Senior Phase and Beyond:

This course will lead to accreditation at either National 4 or National 5 Modern Studies at the end of S4. Pupils can go on to study National 5 or Higher courses.

Career Opportunities

Journalism, Police Force, Law, Medicine, Politics, Research Analyst, Teaching among many more

Methods of Assessment:

Continuous 'informal' assessment of throughout to monitor progress.

Tracking assessments based on SQA past papers, under timed conditions for unit assessments.

Subject: Religious, Moral and Philosophical Studies (RMPS)

Year Group: S3

Course Structure and Content:

This is a course about real life, designed for real people. It prepares pupils for life by challenging them to think and to ask questions. It encourages pupils to consider and to express their own opinions and ideas.

There are four units:

- World Religion pupils will learn about and learn from a key belief system. By studying Buddhism, pupils will find out about how people's beliefs and values affect their lives, their traditions and their practice.
- Morality and Belief pupils will consider some of the moral issues in modern life, such as crime and
 punishment or modern warfare. Pupils will look at religious and non-religious viewpoints and they will then
 develop and explain their own view.
- Religious and Philosophical Questions pupils will learn to deal with questions such as "why is there evil in the world?" or "can humans really be free?" by studying the history of some deep philosophical questions.
- The fourth unit is a project where pupils choose to study an issue or topic in more detail. By researching and presenting their findings, pupils will apply the skills they have learned in the other units and develop even greater understanding of their chosen topic.

Skills Development:

Studying RMPS helps develop a wide range of vital life skills including:

- describing, explaining and analysing questions and responses;
- enquiring into and evaluating different beliefs, ideas and viewpoints;
- expressing views about real life issues in a reasoned manner;
- interpreting and understanding key texts and sources of information.

This course also helps pupils develop their reading, writing, listening and talking skills. It develops philosophical enquiry and citizenship, as well as helping pupils learn to think, remember, understand, analyse and evaluate.

Throughout the course, pupils will also develop skills in Literacy, Numeracy and Health and Well-Being.

Progression into the Senior Phase and Beyond:

RMPS helps pupils to prepare for real life in the real world. This course will lead to accreditation at either National 4 or National 5 RMPS at the end of S4. Pupils can go on to study National 5, Higher and Advanced Higher RMPS courses or follow courses in other, related, subjects like Psychology or Philosophy.

Career Opportunities

Pupils can use skills they gain studying RMPS in virtually all walks of life, particularly where they intend to work with people. According to Edinburgh University, it is particularly useful for careers such as:

Primary Teaching, Secondary Teaching,

Nursing, Social Work, Care, Counselling, Psychology, Mental Health, Midwifery, Occupational Therapy, Youth Work,

Public Relations, Marketing, Personnel Management, Copywriting, Management, Company Secretary,

Journalism, Broadcasting, TV Presenting, TV Production, Scriptwriting, Sound Design, Photography, Multimedia, Editing, Writing, Publishing,

Solicitor, Law, Local Government, Civil Service, Administration, Politics,

Police, Prison and Probation Service, Advocacy

... and Stand-up Comedy!

Methods of Assessment:

Topic tests, group work, class presentations, research and project work, final exams.
