

April 2026

Dear Parents and Carers

As you will be aware we currently use the school app Connect Us to send out communications from the school office. This company is to cease trading over the summer holidays therefore we need to change how this is done. As a school we need to support clear, consistent and efficient communication between home and school, therefore we are asking all families to actively engage with the Groupcall app moving forward.

After the Easter holidays, Groupcall will be our main platform for school communications and for reporting pupil absences. Having one central system allows us to ensure messages are received promptly, recorded accurately and responded to appropriately. It also helps us streamline communication so nothing is missed.

Groupcall is used by most other Angus schools and is proven to be a really effective and beneficial tool which provides timely updates, keeps important information in one place and strengthens communication between school and home.

In line with Angus Council guidance, SeeSaw should continue to be used as a learning tool to share children's achievements and experiences from school to home. This should not be used for general communication or for reporting absences, this must always be done via the school office using Groupcall.

Please take a few moments to download the new app and read the information below and activate your account as soon as possible.

Thank you for your continued support in helping us maintain strong and effective communication.

Did you know you can download Groupcall Mobile App from your app store?

EDUSPOT mobile app is a very useful Groupcall app used by the school office for communication with all parents. This app is for receiving and sending messages/information from the school office direct to the app on your phone.

There are three simple steps to complete once you have downloaded the app from either Apple store or Google Play.

1. Add your email address held by the school
2. Add your mobile number held by the school
3. Add one off verification number sent to your phone/email.

That's you ready to go.

SeeSaw will still used in school for learning information only.

Any issues please contact the school office, Mrs McNicol will be happy to help with any queries.
