

### Until we meet again (Bankhead version)

Wish we could reach you through a distance  
Show you our hearts and all that we're feeling  
We know we can speak, but it's clear something's missing  
So now is the time for our new beginning.

So until we meet again  
I'ma keep smile, smile, smile, smiling  
We could be miles apart  
But you know we're never too far  
My friends, until we meet again.

Leaving Bankhead will bring us such sorrow.  
Moving from friends and teachers we all know.  
We have to be strong for facing tomorrow.  
As high school is next and we'll continue to grow.

So until we meet again  
I'ma keep smiling (smiling)  
We could be miles apart  
But you know we're never too far  
My friends, until we meet again.

There may be times that it feels like it's impossible  
But every time, yeah, I find my strength in you (I find my strength)  
There may be times that it feels like we are all alone  
There may be times, there will be times.

So until we meet again  
I'ma keep smiling  
We could be miles apart  
But You know we're never too far  
My friends, until we meet again  
So until we meet again (oh, 'til we meet again)  
I'ma keep smile, smile, smile, smiling (I'ma keep smiling)  
We could be miles apart  
But you know we're never too far  
My friends, until we meet again  
My friends, until we meet again
