

Bankhead Primary School – Room 10

Here are a range of activities you could do at home. Work through them with your parents.

Numeracy

Complete the Big Maths CLIC and SAFE sheets which have been posted for your group in our Google Classroom. (Sets 3&4.) You don't need to print the sheets off, unless you really want to. Just write the answers in your jotter. Answers to each sheet will be posted on Thursday.

Have a go at the new ULTIMATE LEARN ITS CHALLENGE which has been posted in our Google Classroom. You can write the answers in your jotter or just practise orally. You might even want to time yourself! It would be a good idea to do this for five minutes each day. Answers will be posted on Thursday

Studdyladder maths pods have a focus on Data Handling this week. Try the activities which have been set for your group.

P7 should continue with their Stonelaw High Transition work. We will upload an answer book this week.

Literacy

* Read the indicated chapters of your group's e-book, which was uploaded onto Google Classroom last week.

The books for each group are as follows:

Blue P7a – Code Cracking for Beginners (Ch.12-22)

Blue P7b – The Man Who Bought a Mountain (Ch. 4-6)

Green P6 – Jazz Harper Space Explorer (Ch.5-11)

Red P6 (Ross) – Dinosaurs (Whole book)

(Please notify Mrs Muir if the book is not visible/accessible to you in our Google Classroom)

* **Blue P7a & P7b, and Green P6**, choose a character from your novel and try the **Character Visualising worksheet** found in Google Classroom. We have completed sheets like this before, where you try to visualise the character by finding & recording evidence from the text that helps build an image of the character, under the given headings. This will be uploaded as a document for you to type onto & also as a pdf that you can print off and write onto. You chose which type of worksheet suits you best.

* **All groups** - Try the worksheets that have been posted for your reading book. You don't need to print the worksheets off, unless you really want to. You can just write the answers in your jotter or on paper.

* **Spelling & Grammar** – In the Studdyladder Literacy pods for this week you will find some additional grammar activities. There are also some spelling revision activities for you to complete, if you wish.

Health and Wellbeing

* Show us what you've been creating at home! Some of you may enjoy cooking or baking, (you may want to try making a pizza using the ideas posted last week) some of you may enjoy making models, you may have made an animation or video you're proud of, or written a story, or a song. Maybe you've drawn an impressive picture or a created sculpture. Maybe you just enjoy making a mess!! Upload photos of all your creations, Room 10, we'd love to see them.

* Also, don't forget to share with us how you've been keeping active. Let's inspire each other to stay fit. Post your photos or videos for us all to see and maybe we'll get some new ideas!

French

Practise your French numbers, you can try the activities posted in our Google Classroom.

1. Combien? Say or write the numbers using the vocabulary, at the side, to help you.
2. Challenge : Continue the number sequences in French. You can write the answers in your jotter, or on paper, or print off the pdf and write on the sheet.

Answers will be posted on Friday.

Bon Chance!

Optional Task (ongoing from last week)

Personal Project – A Person you Admire

Create a fact-file or a PowerPoint based on the person who you admire the most. This can be someone you know in real life, or a sportsperson, an actor, a musician, a politician, a scientist, or someone from history. The possibilities are endless!

You should try and include as much information as you can. The important part is that you don't forget to include why you admire this person so much.

Mrs Wallace admires Nelson Mandela, who fought for equal black rights in his native South Africa, and globally, challenging apartheid and segregation, before being imprisoned for his beliefs in 1964 until 1990. Nelson Mandela was awarded the Nobel Peace Prize 1993. He became the first black President of South Africa in 1994.

Mrs Muir admires Mother Teresa, who lived a life of poverty so she could help others. She often worked with those people whom society had turned their backs on, children who were orphaned, the sick and the disabled. Through her selfless acts, she inspired many people to help others. Mother Teresa was awarded the Nobel peace Prize in 1979.

All the resources you will need for this week have been posted in our Google Classroom. Please join our Google Classroom if you have not already done so, you will find all the joining instructions in our previous emails or on the school app.

If, for any reason, you are unable to join our Google Classroom, or have joined but cannot see the resources we have uploaded, please email us privately and we will try to address the problem and organise another way for you to access the activities. Remember to check in our Classroom regularly, as there will sometimes be additional activities/challenges posted by ourselves or even Mr. Hamill, Mrs Yardley and Mrs Easton.
