

Literacy

In reading, we have been learning how to apply comprehension to what we have read. This includes predicting, summarising and inferencing.

In writing, we have been learning to use instructional language. Our instructions for how to build a snowman were super!

Numeracy

In Numeracy, we have been carrying out addition within 20. We can use lots of mental strategies and we also like to use cubes and number lines to help us.

We have also extended the range of number we can work with to 100.

Topic

We have continued some of work on Animal Welfare and have been preparing for our class assembly!

We have asked lots of interesting questions about animals to extend our learning. We had fun looking at how animals adapt to different environments.

ROOM 3 PRIMARY 2

Health and Wellbeing

We have been learning about nutrition and which foods have most nutritional value. We have also worked on recognising our talents and skills.

We will now be learning about exercise and how this affects your body.

Assembly

We have been preparing for our class assembly and presented this on Friday 19th January.

This was based on our topic animal welfare. We produced artwork, practised drama and singing and had fun! We worked super hard!

Science

Last term, we learned lots of exciting things in Science. We looked at the changes in the seasons, the sun and moon and space!

This term, we will be learning about forces and magnetism. We have already started learning about pushing and pulling.
