

# Primary 1 Room 2

## TERM 2

### Happy New Year!

Welcome back and a Happy New Year! Room 2 worked really hard in term 1 and we are confident they will keep this up this term. We have started this term focusing on Burns'. The children have done a great job learning their poem and we are looking forward to seeing who makes it through for the Burns' assembly. We have changed the toys in the classroom around. The children are enjoying the kitchen area and the bricks for building.

### Literacy

This term we will be continuing to learn the individual sounds. We aim to have taught all the alphabet sounds by Easter. We will be continuing to work on blending and our common words. In reading, we will be continuing to work on different reading strategies such as using the picture and sounding out. In writing, we will be building sentences and trying to extend our writing. We will keep remembering capital letters at the start, full stops at the end and finger spaces in between.

## Numeracy and Maths

In Numeracy this term, we will be working on subtraction. We will be learning different strategies to help us subtract. We will also be working on the numbers to 20.

In Maths, we will be learning about time. We will be learning and ordering the days of the week and months of the year. We will be sequencing events as well as identifying o'clock times. We will also learn about symmetry and will be creating symmetrical pictures.

## Learning across the curriculum

Moving forward we are approaching learning across the curriculum differently in Primary 1. Instead of the topics already being decided we have asked the children what they wonder about the world and they generated some great questions for us to explore. This term we will begin looking at answering the questions about space and dinosaurs. We are looking forward to trialling this.
