

TERM 1

P5/6 have settled well into the new session and are enjoying working together.

LITERACY

For reading this term we will be focusing on fiction. We have studied 'Why the Whales Came' by Michael Morpurgo as a whole class. P5s are now reading 'Kaspar - Prince of Cats' which links well with our Titanic Topic.

The P6's are reading 'Kensuke's Kingdom'. Both of these novels are also by Michael Morpurgo. Alongside this we are focused on our weekly spelling and grammar activities.

HEALTH

In Health we are discussing the different influences in our lives and looking at strategies to help us make good decisions in the face of negative peer pressure. In PE, we are developing our co-ordination, fitness and footwork skills through Badminton and Tennis.

ROOM 10

MATHS AND NUMERACY

In maths and numeracy, we are studying time. We have completed our study of place value, estimating and rounding. We will now be exploring the four operations of addition, subtraction, multiplication and division.

SCIENCE

In Science we are exploring the classification of animals. We have begun exploring the different species of Vertebrates and Invertebrates and sorting different animals into these categories. We will create our own classification charts and use these to help us classify living things in our environment.

TOPIC

We are just starting our Titanic topic and have been discussing the pupils prior knowledge and what they want to learn about this topic.
