Article 28 - The right to learn

- I am encouraged to take risks and try new things.
- The adults that care for me know how to support my development and plan my next steps.
- I am given the opportunity to learn new skills and develop my understanding in a variety of ways.
- The adults that care for me help me and my family prepare for the next stage of my education.

Freiburg Principle—Autonomous Learners

Each child is unique and what children can do rather than what they cannot, is the starting point for a child's learning. Children learn best by doing things for themselves and from becoming more aware of their own learning. Freiburg educators respect children for who they are and value them for their efforts.
