

Forces

Complete the sentences below by choosing the correct missing word.

A force makes something _____. (jump/move)

If you want it to move faster, you need to use _____ force. (more/less)

If you want it to move slowly you need to use _____ force. (more/less)

To apply a force, you need to _____, _____ or _____ the object.

Push, pull or twist?

Lets think about what forces we use to make objects we use move.

Look at the table below and predict if you think you would use push, pull or twist to make them move. (Hint – there could be more than one answer)

Once you have made your predictions, check your answer by trying to move them yourself is you have them at home.

	My Prediction			Result		
	Push	Pull	Twist	Push	Pull	Twist
 Toy car						
 Brushing your hair						
 Playing with a ball						
 Turn on a tap						
 Putting these shoes on						
 Spraying this bottle
