

Friday 15th May 2020

Well done everyone on completing another week of home learning! I am missing you all so much but your pictures and messages on See-Saw have been cheering me up. Below are some tasks for Fun Friday you can choose from.

Health & Wellbeing

Today we are going to do some yoga! Cosmic Kids have a great farm yoga video - I had a go at it this week and loved it! I think you'll enjoy it too 😊

Technology

Can you design a better house for the lady on the farm from 'A Squash and a Squeeze'? She complained that her house was too small for her. Maybe you could create a new home for her with some junk modelling or lego. Think about the space she would need and if she would have room for the animals this time!

Art & Design

I have attached a farm-themed finger puppet template on See-Saw. If you have a printer you can print them off, cut around them and glue them together. If not, you could always create your own. Once you have your finger puppets, you could retell the story of A Squash and a Squeeze. Put on a performance for your family at home, or film it and put it on See-Saw!

Extra Activities

There are farms around Markinch. If you are able to, have a walk today and look out for any fruit, vegetables or animals on these farms. What did you see? When you get home, draw a picture of what you were able to find.
