The 3 Я's

Revisit - Review - Revise

1. This spinner has 12 different coloured parts. The arrow points to **red**.

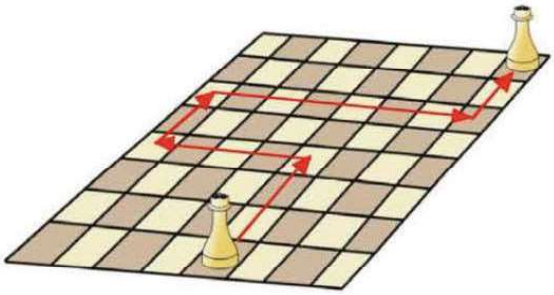
   a The arrow is spun **quarter turn clockwise**.
   On what colour does it land ?

   b From **red**, the arrow is spun **anti-clockwise**.
   What is the first colour it passes over ?

   c This time the arrow starts on **black**.
   It spins a **half turn clockwise**.
   What colour does it end up at ?

   d Now the arrow starts on **brown**.
   It is spun **90° anti-clockwise**.
   What colour does it land on ?

2.



During a game of chess, the Queen moved around the board as shown.

Use **left**, **right** and **forward** to describe the moves.

3. a Sketch this cross to show a compass.

   b Fill in the directions, **South**, **West** and **North** on your diagram.
   c I am facing South. I make a **90° turn anti-clockwise**.
   Which way am I now facing ?
