Remote Learning 2021

Pupil Survey Feedback

What's going well

Live lessons help the most and are way better than last lockdown, more motivation.

It works well to have the teacher on a call and being able to message them or ask your questions after they have explained everything.

I think that this time round we feel more connected with teachers and the rest of the pupils which makes me feel less alone.

I really like it when the teachers show you what you are doing, and it helps a lot with the work.

All that is being done is good.

Thanks to all the teachers and staff for helping us adapt so quickly and offering support.

We're still a school even though we are not in school.

I sometimes feel overwhelmed with the amount of work.

I don't really feel comfortable speaking on the live lessons.

I feel like I am not doing as well as I did in school because I am setting too high standards for myself and struggling to reach them.

I find that there is too much work for most of the same date and that can get very stressful.

Calls lasting for the full period/s, actually allow us time to do the work.

My biggest issue with remote learning is the number of distractions at home.

I don't like Forms because when I get a question wrong it is usually because of missing punctuation.

Challenges

Chart Information

93% said that they know how to access their school work on line either all or most of the time

How do you feel about the volume of work being issued?

● Too much
● Just right
● Not enough

Suggestions for Improvement

Explain where to find tasks a bit better and break down tasks into steps more

Maybe giving a notification when an online class is starting

Make it clearer where files are saved

Organise the channels a bit better so it's easier to find assignments, posts from the teacher, and access help

More and better feedback from teachers
