

26.4.19

Dear Families,

We are investing in developing our 'loose parts' play both indoors and outdoors. Loose parts allow our learners to use their imaginations in lots of different ways – allowing their creative skills to flourish.

We've already been using loose parts but we are now looking to extend our loose part collection and we need your help!

If you know any **builders, electricians or tradesmen** who could help us with large items such as **cable drums/reels, pallets, pipes and guttering** that would be great! If you are clearing out then your junk could be our treasure so please see our list below for all the different items we hope to gather!

Thank-you for your continued support.

Kind regards, The Nursery Team.

### **Possible Resource list**

- Crates
- Pipes
- Traffic cones
- Buckets
- Cardboard boxes / tubes
