Dear Parent/Carer,

There have been lots of phone calls to school today asking about procedures for self-isolation. NHS Track and Trace have been working with myself to communicate to specific families regarding self-isolation. This information is directed at individual pupils and if you have not received a text message from the school or NHS then you should continue as normal.

When track and trace get in touch it is for individual pupils only and not families with siblings. If there is a positive covid-19 test within a family home then the whole family need to self-isolate. If you are contacted by myself or NHS to isolate a particular pupil then the rest of the family are fine to attend school/work. Self-isolation is a precautionary measure.

I am taking the lead from NHS and following their guidance at all times, liaising with Falkirk Council and communicating with specific families. The school continues to be open with staff and pupils working as normal at this time.

I hope this answers any questions you may have had. You will appreciate that I am unable to discuss any pupil/family matters as these are highly confidential.

Yours sincerely

Mrs J McLaughlin
Headteacher
