

While live entertainment is not a viable proposition we have, in partnership with Regional Screen Scotland and INDY Cinema, temporarily transformed Lanark Memorial Hall into a **Socially-Distanced Cinema** and will be showing some classic movies together with current cinema releases.

Normally when we are looking for help to advertise our activities at Lanark Memorial Hall, we would drop off or post some marketing materials for you to distribute but this is obviously not encouraged these days due to covid guideline.

I would therefore be grateful of any help you could give us to spread the word to your pupils/school community via any social media/electronic communication you have available.

Full listings and ticket information is available at www.sllcboxoffice.co.uk and we are constantly added content the LANARK MEMORIAL HALL Facebook page including all the show trailers.

I have attached a listing of screenings for the first 4 weeks.

Many thanks in advance for any help you can give us as we strive to still try and be of some service to the local community in these unprecedented times.

Regards

Scott
