

It has been another really busy week at Lornshill Academy and our S3 students continue to make excellent progress across the school. Recently, many of our students have been completing assessments across different subject areas and although it has been really tough at time preparing for these, I've been really impressed by how much effort is being put into getting ready for these.

This week sees the summaries of learning landing on your doorsteps and these will provide you with an update on your child's progress in each of their chosen subjects. These have been deliberately kept straightforward and will provide your child with a few key targets to work on over the next few weeks. Going forward, you will be able to monitor how your child is progressing through our online tracking and monitoring system.

S3s have also been spending time this week focusing on mobile phone use and it is clear that some young people are spending considerable amounts of time on their devices. The focus for these discussions were on the impact that this can have on their ability to socialise, study and rest effectively. Whilst they bring many benefits to the lives of our young people, we'd be grateful if you could encourage them to do the right thing in school by keeping their devices away.

We ask that everyone in our school follows the most recent public health advice in relation to COVID-19 and in that respect, we would be grateful if you could remind your child to wear a face covering at all times when moving around the school. They should also be worn at all times on school transport. By working together and doing our bit, we can all help to keep Lornshill Academy as safe a place as possible.

As always, should you have any further questions, please do not hesitate to get in touch.

Mr Burrell

S3 Year Head
