

Room 9 Term 2

Literacy

Having thoroughly enjoyed *The Witches* by Roald Dahl, room 9 are now reading non-fiction books both for homework and in class. In class we are reading *Broomsticks and Balloons*, *Zlata's Diary* and *An Encyclopaedia of Myths and Legends*. We will be linking our writing to these texts and producing instructions for science experiments, creating diary extracts and creating entries for an encyclopaedia.

Maths

For maths we will be learning how to use compass points and directions as well as looking at scale and grid references. We will then focus on decimals where we will be learning to add, subtract, multiply and divide them.

Other Curricular Areas

Our science topic is light and sound and for RME we will study Advent as we head into the festive season. For our history topic we are continuing to learn about the 1960s. We will be looking at the music, clothes and art from that period. The P6s will continue with their drama sessions on a Monday morning whilst the P5s attend music sessions.
