

EASTBANK ACADEMY
SENIOR PHASE TRACKING REPORT - EXAMPLE

PUPIL NAME

At Eastbank Academy we are committed to encouraging and supporting every pupil to reach their potential. To achieve this, we closely monitor the progress of our Senior Phase pupils during the academic session. By communicating on this progress regularly we can work closely with parents to ensure that pupils gain the maximum benefit from their education.

Please find overleaf a progress report for each of your son or daughter's subjects. These provide:

- The working level for each subject, indication National 3, National 4 or National 5
- A succinct summary comment for each subject
- Progress rating for each subject against this level, where:

Student will pass and is performing at their ability level and beyond

Student should pass but is capable of performing better than current level

Student will not pass on the basis of current performance

Please note that there are two school weeks until the prelim exams commence for Higher subjects with National 5 assessments taking place early in the New Year. Pupils should use the advice in the reports to inform their study plans in the weeks ahead. Moreover, pupils should be thinking beyond the prelims to the final SQA exams which commence in May 2021, and the assessment evidence that we will require to gather to support estimated grades. In addition, fifth year students returning to Eastbank next session should consider the detail of these reports carefully when choosing subjects for next session.

We will issue a further tracking report in late January, which will be informed by the pupils' performance in the prelim exams.

I hope you find the reports helpful and of value. If you wish to discuss any aspect of your son or daughter's progress, please feel free to contact the appropriate Year Head or his/her Pastoral Care teacher.

Yours sincerely

Jonathan Graham
Head Teacher

EASTBANK ACADEMY
SENIOR PHASE TRACKING REPORT - EXAMPLE

PUPIL NAME

<u>Subject</u>	<u>Level of Study</u>	<u>Progress</u>	<u>Comment</u>
Mathematics	Higher		Mathematics: Pupil is grasping most topics as they are taught. He would benefit from attempted more challenging examples and must ensure he remains focussed. He should focus his revision on the earlier topics covered in the course.
Biology	Nat 5		Biology: Pupil is progressing well in Biology. He has shown good knowledge and understanding of the subject and strength in his problem solving ability.
English	Nat 5		English: Pupil is struggling with certain aspects of the course, specifically RUA. He should routinely study these materials to improve those skills. Pupil has yet to submit a persuasive folio first draft.
PE (SQA)	Nat 4		PE (SQA): Pupil has made excellent progress with the N4 written work, he follows information in class and answers homework questions to a good standard. The next step for Pupil is to keep improving his badminton performance.
Scottish Studies	Nat 5		Scottish Studies: Pupil has improved on his effort level in class. He is well focused and produces good work. I would advise Pupil to continue working on retaining information and writing skills.
