

## Global Learning at Grange CE Primary School

At Grange C of E School, we aim to embed global learning in our school curriculum, running across all teaching and learning. We strive to equip children with the skills, knowledge and attitudes that will enable them to succeed in today's world.

Empowering children to recognise and take a stand on injustice in the world and to work for equity for all is key to what we do here at Grange. Global learning starts with an awareness of what is happening on our doorstep, country and further afield around the world. We encourage the children to look outwards.

Global learning enables them to think, ask questions and debate the issues that affect the world today and in the future.

In our school we share the UN CRC <https://www.unicef.org.uk/rights-respecting-schools/wp-content/uploads/sites/4/2019/11/UN0332751.pdf>

with the children and start each year by setting up individual Class Charters which tell everyone what they expect from all in the class. A class charter is a set of rules, promises or guidelines that children and teachers have all agreed on for the classroom. They're created to help children understand that they have certain rights in the classroom. These rights are important to keep them safe and happy; they support our school vision and values.

The UN CRC are interwoven in our curriculum and in our collective worship and assembly planning helping the children to see how we can make a difference for ourselves and others.

The Sustainable goals <https://sdgs.un.org/goals> are also part of our curriculum learning in school, for example goal 6 Clean Water and Sanitation was a feature of the school's charity work in 2019/20. A committee of KS2 pupils raised the plight of those without toilets and then organised and ran a successful fund-raising event to ensure that others had the facilities that we have in our school.

### **Sikles Primary School**

Sikles Primary School is part of the Annapurna Secondary School in Sikles, Nepal and was built with the help of the Pahar Trust.

We are proud to have a partnership with Sikles Primary School and school staff from both schools have taken part in reciprocal visits to learn from each other share ideas. Through Connecting Classrooms projects our children's learning is enhanced. Projects have included art, science and technology -hydro power, gender and currently: festivals, national flowers and native plants with a focus on any that are endangered.

Fairtrade -linked with Nepal and the work of Women's' Skills, the children in Y2 learn about Fairtrade through Fairis the Fairtrade frog. Fairis is also a friend of schools in the Sikles area and they too learn the importance for raising families out of poverty.

Grange C of E School has a British Council International School Award and is part of UNICEF UK Rights Respecting Schools
